### Notes on Field Content

Persistent identifiers are specific Internet addresses which allow one to reference an electronic resource with the aid of a hypertext link, while making sure that this link will not change. There are several systems which allow the creation of persistent identifiers.

An authority record appearing in an OAI repository can also be referenced through a persistent identifier. Thanks to this tool, it is possible to add this authority record to one's own bookmarks or to quote it on a web site, in an e-mail, on a blog or in a forum, simply by using the address which is displayed in the browser during an online session.
