Subfields Description

$a Entry Element

Portion of the name used as the entry element in the access point; that part of the name by which the name is entered in ordered lists.

This subfield must be present when the field is present. Not repeatable.

$b Part of Name Other than Entry Element

Remainder of the name, used when the entry element is a surname or family name.

It contains forenames and other given names.

The form of name indicator should be set to 1 when this subfield is used. Printing expansions of initials should be entered in $g. Not repeatable.

$c Additions to Names Other than Dates

Any additions to names (other than dates) which do not form an integral part of the name itself including titles, epithets or indications of office.

Repeatable for second or subsequent occurrences of such additions.

$d Roman Numerals

Roman numerals associated with names of certain popes, royalty and ecclesiastics.

If an epithet (or a further forename) is associated with the numeration, this too should be included. The form of name indicator should be set to 0 when this subfield is used. Not repeatable.

$f Dates

Dates attached to personal names together with abbreviations or other indications of the nature of the dates.

Any indications of the type of date (e.g., flourished, born, died) should be entered in the subfield in full or abbreviated form. All the dates for the person named in the field should be entered in $f. Not repeatable.

$g Expansion of Initials of Forename

Full form of forenames when initials are recorded in subfield $b as the preferred form and when both initials and the full form are required.

Not repeatable.
