

616 SUBJECT ACCESS POINT – TRADEMARK

Field Definition and Scope

Trademark which is one of the subjects of the work, in access point form, with the optional addition of extra subject information.

This field is intended for recording access points for trademarks used as subjects of a work. Terms may be added to a subject access point to further specify it with respect to form, topic, place or time. These and the order of all the subfields follow the rules of the subject system or thesaurus used by the agency preparing the record.

Subfields Description

\$a Entry Element

The trademark name in access point form. Not repeatable

\$f Dates

The dates between which a particular trademark was in use, when they are required as part of the access point, for example, as qualifiers. Not repeatable.

\$c Qualification

Any addition to the name of the trademark added by the cataloguer, other than dates. Repeatable.

\$j Form Subdivision

A term added to a subject access point to further specify the kind(s) or genre(s) of material. Agencies not using this subdivision should use \$x instead. Repeatable.

\$x Topical Subdivision

A term added to a subject access point to further specify the topic the access point represents. Repeatable.

\$y Geographical Subdivision

A term added to a subject access point to specify a place in relation to a trademark which the subject access point represents. Repeatable.

\$z Chronological Subdivision

A term added to a subject access point to specify the period in time in relation to a trademark which the subject access point represents. Repeatable.

\$2 Source

Identification in coded form of the system from which the subject access point is derived.

It is recommended that subfield \$2 always be present in each occurrence of the field. For a list of system codes, see UNIMARC/Bibliographic format, Appendix A. Not repeatable.
