

146 CODED DATA FIELD: MEDIUM OF PERFORMANCE

Field Definition and Scope

This field gives details of the instruments and/or voices, devices and other performers which make up a musical work.

It was designed prior to the release of the FRBR and IFLA LRM as well as of the cataloguing rules that conform to them. According to the FRBR/IFLA LRM, some of the information carried in this field pertains to FRBR/IFLA LRM entities other than the Manifestation. Such data should preferably be carried in linked authority records describing the relevant related entity rather than in the record describing the Manifestation. However, those data can still be carried in bibliographic records describing manifestations under certain conditions, especially when the records are/were created in a pre-FRBR/IFLA LRM or a non-FRBR/IFLA LRM context.

Notes on Field Contents

The order and occurrence of subfields is mandatory in following cases:

- at least one subfield \$c or \$d is mandatory if field is present;
- a subfield \$b may occur only if at least one subfield \$c or \$d is entered;
- a subfield \$e may occur only if at least one subfield \$d is entered;
- a subfield \$e may immediately follow only a subfield \$d, \$e or \$f;
- a subfield \$f may occur only if at least one subfield \$c or \$e is entered;
- a subfield \$f may immediately follow only a subfield \$c, \$e or \$f.

The degree of detail of the field may vary according to the local practice, e.g. all instruments employed in an orchestra may or may not be specified ([EX 2-3](#), [9](#), [18](#)). The most common example of non-detailed indication are percussion instruments in ensemble; sometimes only a close analysis of the score makes it possible to specify all instruments; in such cases the indication will more likely be limited to the number of percussion players ([EX 13](#)).

Subfield \$b should be used in place of subfield \$c to differentiate soloist(s) in opposition with accompanying voice(s)/instrument(s), etc. (entered in \$c) or ensemble(s) (entered in \$d) or their arranged version ([EX 2-3](#), [5-7](#), [18-20](#)).

If there is no distinction, enter all in \$c.

If detailed, instruments/voices, etc. being part of ensembles entered in \$d are always coded in \$e.

In subfield \$d, character positions 5-6 may be used to indicate the number of real parts of the ensemble. If used to code more than one ensemble, positions 5-6 may be used only if all the ensembles have the same parts (e.g. for two choirs for four mixed voices code 02cmi04###); if parts vary, code ## ([EX 6](#)).

As an alternative, field \$d may be repeated for each ensemble ([EX 14](#)).

In case of repeated subfield \$d, subfields \$e must be entered after each related subfield \$d ([EX 4-2](#), [14](#), [21](#)).

Subfield \$f may be used to specify individual instruments from a generic code used in \$c or \$e, e.g. the specific instruments coded as percussion in \$c. Each series of \$f must immediately follow the related subfield \$c or \$e. ([EX 13](#), [21](#), [22](#)).

It is recommended to use subfield \$h to specify the number of real parts only when it differs from that of players entered in \$i, or when the number of players cannot be determined ([EX 2](#), [5-9](#), [14](#), [20](#)).

In subfields \$h and \$i, the code “a” in position 3 must be used by default to indicate the total number of parts and players when the musical work is vocal a cappella music or when it is instrumental music ([EX 1-2](#), [9-12](#), [14-17](#), [19-20](#)).

Brian Ferneyhough's <i>Firecycle beta</i> , symphonic torso for two pianos and orchestra with five conductors (1969-1971). Orchestra includes amplified instruments, harpsichord and celesta played by the same performer and six groups of percussions. Each string instrument plays a different [real] part, thus the

Code lists

Code lists are maintained and updated by IAML (International Association of Music Libraries, Archives and Music Documentation Centres).

The lists show a definition term and several other terms using the same code, without distinction between:

- similar instruments, voices or devices having the same code;
- definition in other language(s);
- orthographical variants.

Chronological, organological or language specifications are added in brackets if strictly necessary. The pitch of the instruments is specified when necessary (e.g.: A, Bb, F).

A: codes for subfields \$b-\$f, positions 2-4

Pertinence of instruments to “families” in code lists is specified by the first character of the three-letter code.

Instruments needing a code in pos. 5-8 are shown only when they have a specific name in any language.

1. Voices
2. Woodwinds
3. Brass instruments
4. Strings, bowed
5. Strings, plucked
6. Keyboard
7. Percussion
8. Electric / electronic instruments and devices
9. Miscellaneous, other, unspecified instruments
10. Choruses
