

## 430 CONTINUES

### Field Definition and Scope

The field is used to link a continuing resource being catalogued to a preceding title. Fields 431-437 are used in preference to 430 when it is required to elaborate on the “preceding” relationship.

The specifications below are in addition to those given at the block under 4-- LINKING ENTRY BLOCK.

### Notes on Field Contents

Where an agency uses this fields, they should be distinguished as follows:

Continues: the new title replaces the earlier title without a change in numbering;

Supersedes: the new title replaces the earlier title and the numbering of the earlier one is not continued;

Absorbed: a continuing resource was in existence before it absorbed an earlier continuing resource and it continues with its own numbering.

Separated from: the new title was once a part of a still existing title.

### Related Fields

|                                            |                                                                                                                                                                                                                                      |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 44- Succeeding Entry Fields                | Fields 440-445 are used for the reciprocals of the relationships identified by fields 430-435.                                                                                                                                       |
| 448 CHANGED BACK TO                        | This field is used to link a continuing resource being catalogued to a continuing resource which both preceded it and succeeded it. The practice recommended by the ISSN Centre is to use fields 440 CONTINUED BY and 430 CONTINUES. |
| 520 FORMER TITLE<br>(CONTINUING RESOURCES) | Used when the practice is to record a continuing resource under its latest title with added entries under earlier titles. Not to be used when 430-437 are used.                                                                      |

| Recommended usage of 430 and 440 fields instead of using the 448 field. The journal <i>Kolo</i> changed back to this title twice during its publishing history. Each time the title changes a new record is created and the records are linked by fields 430 and 440. Each title is differentiated by adding the qualifier in the key title.<br>A further example of the use of field 430 occurs as <a href="#">EX 3</a> in the 4-- LINKING ENTRY BLOCK and <a href="#">EX 2</a> in field 488. |
