

441 CONTINUED IN PART BY

Field Definition and Scope

The field is used to link a continuing resource being catalogued to its succeeding title. Fields 441-445 are used in preference to 440 when it is desired to elaborate on the “succeeding” relationship.

The specifications below are in addition to those given at the block under 4-- LINKING ENTRY BLOCK.

Notes on Field Contents

Where an agency uses this fields they should be distinguished as follows:

Continued by: the new title replaces the earlier title without a change in numbering;

Superseded by: the new title replaces the earlier title and the numbering of the earlier one is not continued;

Absorbed by: the continuing resource being catalogued ceases to exist but is continued by the continuing resource referred to in field 444 or 445, although this continuing resource continues its previous numbering.

Related Fields

43- Preceding Entry Fields	Fields 430-435 are used for the reciprocals of the relationships identified by fields 440-445.
448 CHANGED BACK TO	This field is used to link a continuing resource being catalogued to a continuing resource which both preceded it and succeeded it. The practice recommended by the ISSN International Centre is to use fields 440 CONTINUED BY and 430 CONTINUES.

Recommended usage of 430 and 440 fields instead of using the 448 field. The journal <i>Kolo</i> changed back to this title twice during its publishing history. Each time the title changes a new record is created and the records are linked by fields 430 and 440. Each title is differentiated by adding the qualifier in the key title.

Recommended usage of 430 and 440 fields instead of using the 448 field. The journal *Kolo* changed back to this title twice during its publishing history. Each time the title changes a new record is created and the records are linked by fields 430 and 440. Each title is differentiated by adding the qualifier in the key title.

A further example of the use of field 440 occurs as [EX 2](#) in field 488.
