

## 507 PREFERRED ACCESS POINT – IDENTIFICATION OF AN EXPRESSION

### Field Definition and Scope

This field contains the preferred title identifying a specific expression of an anonymous work that is embodied in the manifestation described in the record. Field 507 may link to the record describing that expression.

When there is a name associated with the title of the expression, field 577 should be used instead of 507.

This field is intended for catalogues that comply with the FRBR/IFLA LRM model, and is found in a record describing a manifestation. In such catalogues, fields 506, 507, 576 and 577 supersede field 500.
