2		Form of Name Indicator
	0	Name in inverted order
	1	Name entered under place or jurisdiction
	2	Name entered under name in direct order

Indicators Description

Indicator 1: Meeting Indicator

The first indicator specifies whether the corporate body is a meeting or not. Meetings include conferences, symposia, etc. If the name of the meeting is a subdivision of the name of a corporate body, then the name is regarded as that of a corporate body ([EX 10](#)).

Value 1: Name entered under forename or in direct order

If the source format does not distinguish meeting names from other corporate names, the indicator position should contain the fill character.

Indicator 2: Form of Name Indicator

The second indicator denotes the form of the corporate name.

Value 0: Name in inverted order

An inverted form may be used when the first word of a corporate name or meeting begins with an initial or forename relating to a personal name.

Value 1: Name entered under place or jurisdiction

Used for corporate names relating to governments or other agencies of jurisdiction that are entered under the name of the place. According to certain cataloguing codes other kinds of institutions which are associated with a place are also entered under that place, e.g., universities, learned societies, art galleries ([EX 9](#)).

Value 2: Name entered under name in direct order

Used for all other kinds of corporate names. ([EX 1-8](#), [10](#)).

Subfields Description**\$a Entry Element**

The portion of the name used as the entry element in the **access point**; that part of the name by which the name is entered in ordered lists; i.e. the part of the name up to the first filing boundary. This subfield is not repeatable but must be present if the field is present.

\$b Subdivision (or Name if Entered Under Place)

The name of a lower level in a hierarchy when the name includes a hierarchy; or the name of the corporate body when it is entered under place ([EX 9](#)). This subfield excludes additions to the name added by the cataloguer to distinguish it from other institutions of the same name (see \$c, \$g, \$h). Repeatable if there is more than one lower level in the hierarchy.

\$c Addition to Name or Qualifier

Any addition to the name of the corporate body added by the cataloguer, other than number, place and date of conference. Repeatable ([EX 4](#), [5](#), [7](#), [8](#)).

\$d Number of Meeting and/or Number of Part of a Meeting

The number of a meeting when the meeting belongs to a numbered series. Not repeatable. ([EX 10](#))

\$e Location of Meeting

The place where a meeting was held when it is required as part of the **access point**. Not repeatable. ([EX 10](#))

\$f Date of Meeting

The date of a meeting when it is required as part of the **access point**. Not repeatable. ([EX 10](#))

\$g Inverted Element

Any part of the name of the corporate body which is removed from the beginning of the name in order to enter the body under a word which is more likely to be sought. Not repeatable.

\$h Part of Name other than Entry Element and Inverted Element

In a **access point** with an inverted element, the part of the name following the inversion. Not repeatable.

\$t Title [Obsolete]

For author/title subject **access points**, use field 604 NAME AND TITLE USED AS SUBJECT.

\$j Form Subdivision

A term added to the subject **access point** to further specify the kind(s) or genre(s) of material ([EX 2, 3](#)). Agencies not using this subdivision should use \$x instead. Repeatable.

\$x Topical Subdivision

A term added to a subject **access point** to further specify the topic the subject access point represents ([EX 2](#), [5](#), [6](#), 8). Repeatable.

\$y Geographical Subdivision

A term added to a subject **access point** to specify a place in relation to a corporate body which the subject **access point** represents. Repeatable. ([EX 6](#))

\$z Chronological Subdivision

A term added to a subject **access point** to specify the period in time in relation to a corporate body which the subject **access point** represents. Repeatable ([EX 9](#)).

\$2 Source

An identification in coded form of the system from which the subject **access point** is derived. It is recommended that subfield \$2 always be present in each occurrence of the field. For a list of subject sources, see [Appendix A](#). Not repeatable.

\$3 Authority Record Identifier or Standard Number

The identifier for the authority record for the access point. This subfield is for use with UNIMARC/Authorities format.

Repeatable when it is necessary for more than one Authority Record Identifier or Standard Number to indicate each part of an **access point** where the indexing system uses a pre-coordinate syntax.

Notes on Field Contents

This field is intended for recording **access points** for corporate names used as subjects. These **access points** are structured in the same form as corporate body name **access points** for bodies responsible for the contents of the resource. Subfields \$a, \$b, \$c, \$d, \$e, \$f, \$g and \$h follow the same form as in field 710, and further explanation of the scope and content of these subfields can be found there.

Unlike field 710, this field can contain more than the name of the corporate body and additions to the name. Terms may be added to a subject **access point** to further specify it with respect to form, topic, place or time.

Political jurisdictions subdivided by names of subordinate bodies are entered in this field ([EX 9](#)). If the name of a political jurisdiction appears alone or is subdivided only by subject terms, it is entered in field 607.
