Subfields Description

$a Entry Element

The family name in access point form. This subfield is must be present if the field is present. Not repeatable.

$c Type of Family

A categorization or generic descriptor for the type of family. Includes categorizations such as clan, dynasty, family unit, patriarchy, matriarchy, etc. Not repeatable.

$d Places Associated with the Family

Information pertaining to places where the family resides or resided or had some connection. Repeatable.

$f Dates

The dates of a family when they are required as part of the access point. Not repeatable. (See EX 3 in the field 720).

$o International Standard Identifier for the Name

The ISNI or another international identifier assigned to the name recorded in the field. The first four character positions contain an alphabetic code specifying the nature of the identifier; in the case of an ISNI, this code corresponds to the letters preceding the number. Repeatable.

$2 Source

An identification in coded form for the relator code schema from which the code in $4 is derived, when the code is not from UNIMARC Relator Codes. Not repeatable.

$3 Authority Record Identifier or Standard Number

The identifier for the authority record for the access point. This subfield is for use with UNIMARC/Authorities format. Not repeatable.

$4 Relator Code

A code used to designate the relationship between the person named in the field and the bibliographic item to which the record refers.

Relator codes can be either numerical or alphabetical. The list of numerical codes is to be found in Appendix B. If greater precision is required for performers, a list of alphabetical codes is found at the end of field 146. An agency requiring greater precision should use the numeric code followed by the more specific alphabetic code in a repeated subfield. If another system is used, $4 can be used to carry other codes, followed by $2. Repeatable.

$5 Institution to which the Field Applies

Name of the institution to which field applies in the coded form if it is considered necessary by the agency which creates the record to identify specific attributes of an item.

If the subfield is used codes should be entered in accordance with the provisions of International Standard Identifier for Libraries and Related Organizations (ISIL), ISO 15511 or may contain codes from MARC Code List for Organizations, otherwise, the full name of the agency or a national code may be used.

If the institution holds more than one copy the shelfmark of the item should be added after a colon. Not repeatable.

$8 Materials Specified

Part of the described materials to which the field applies. Repeatable.

Notes on Field Contents

This field is primarily intended for use in holdings records. However, if the agency which create the record do not use the *UNIMARC Holdings Format*, and the attributes of the resource are created at bibliographic record level, this field is used, where applicable, for entities (family names) that have any kind of provenance and / or ownership regarding a specific item.

Subfield $5, code of the Institution to Which Field Applies is used only when the provenance or ownership apply to a specific item.

Form of Name

The form of name which appears in the field is determined by the appropriate cataloguing rules and/or authorities used by the agency responsible for the preparation of the record.

Subfield $a includes the name of the family. Qualifying data are recorded in $c, $d and $f.

Punctuation

There are no standards for punctuation in this field. However, it is recommended that punctuation be retained where it is available in the source format. If the source format uses additional subfields it is recommended that punctuation be printed out by an algorithm generated from the definition of the additional subfields. Because there are no standards for punctuation in this field, recipients of records in the UNIMARC format will have to be aware of the practices adopted by the agency preparing the record. Agencies distributing records should attempt to be consistent in their own records.
